Languages & frontend: TypeScript, JavaScript, Angular, React, Vue 3, HTML, CSS, SCSS, Tailwind CSS, RxJS, Pinia
Backend & APIs: Python, FastAPI, Node.js, NestJS, Express.js, PHP, Laravel, REST APIs, authentication integrations
Databases & cloud: PostgreSQL, MySQL, SQL, TypeORM, AWS
Quality & tooling: Cypress, Vitest, Jasmine, Git, GitHub, GitLab, Bitbucket, CI collaboration, code reviews

PROFESSIONAL EXPERIENCE

Lead Software Engineer II (Frontend) — Best Egg | Feb 2024 – Present

- Deliver customer-facing financial product experiences using Angular, TypeScript, reactive state management, and REST API integrations.
- Contributed to Angular upgrades from versions 18 through 20, supporting framework modernization and continued feature development.
- Built and refined cross-sell offer experiences, including offer cards, carousels, and customer-facing messaging across application surfaces.
- Contributed to an offers-service redesign and frontend refactoring to simplify ongoing changes to offer experiences.
- Implemented and validated cookie consent functionality using OneTrust; partnered with product, design, and QA to deliver accessible, maintainable interfaces.
- Supported production application security by updating Django dependencies to address identified vulnerabilities.

Software Engineer II — Best Egg | Nov 2021 – Feb 2024

- Developed and maintained customer-facing applications and internal tools with JavaScript, TypeScript, and Angular.
- Integrated REST APIs and built reusable interface functionality within existing application architectures.
- Created and maintained Cypress end-to-end tests to improve regression coverage and support release quality.

Applications Developer — Host Merchant Services | Oct 2020 – Nov 2021

- Developed merchant portal features using PHP, Laravel, JavaScript, AJAX, Bootstrap, and SQL.
- Worked with MVC application patterns and relational data to support business workflows and portal functionality.
- Created internal workflow automations that reduced repetitive administrative tasks.

WordPress Developer — Techno Goober | Jul 2020 – Sep 2020

- Built and maintained responsive client websites with WordPress, Joomla, PHP, JavaScript, HTML, and CSS; gathered requirements and migrated content.

ADDITIONAL EXPERIENCE

Telecom Tech I — Delaware Department of Corrections | May 2016 – Jul 2020
Supported hardware, software, Active Directory, networking, and remote systems.

EDUCATION

B.S., Computer and Network Security — Wilmington University | May 2019
